

Bhukosh Unified Download Reference Guide

V 2.0

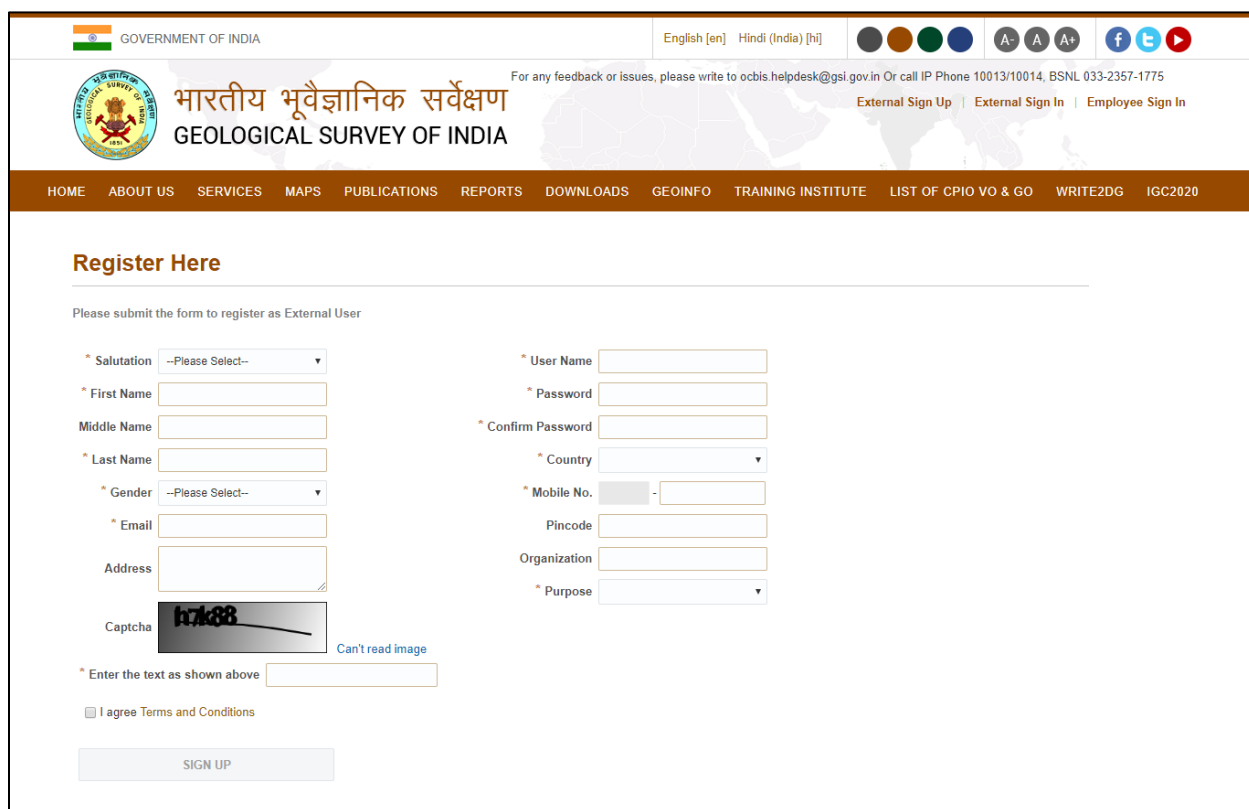

Pre-Requisite(s) to access Unified Download in Bhukosh

Only Registered Users of OCBIS Portal, Geological Survey of India will be able to access Unified Download functionality in Bhukosh.

If you are a registered user (GSI Employee or External User), please login to Bhukosh (<http://bhukosh.gsi.gov.in>).

If you are an external user and not a registered user, please click on below link to Register:

<https://www.gsi.gov.in/webcenter/portal/OCBIS/pageQuickLinks/pageRegistration>

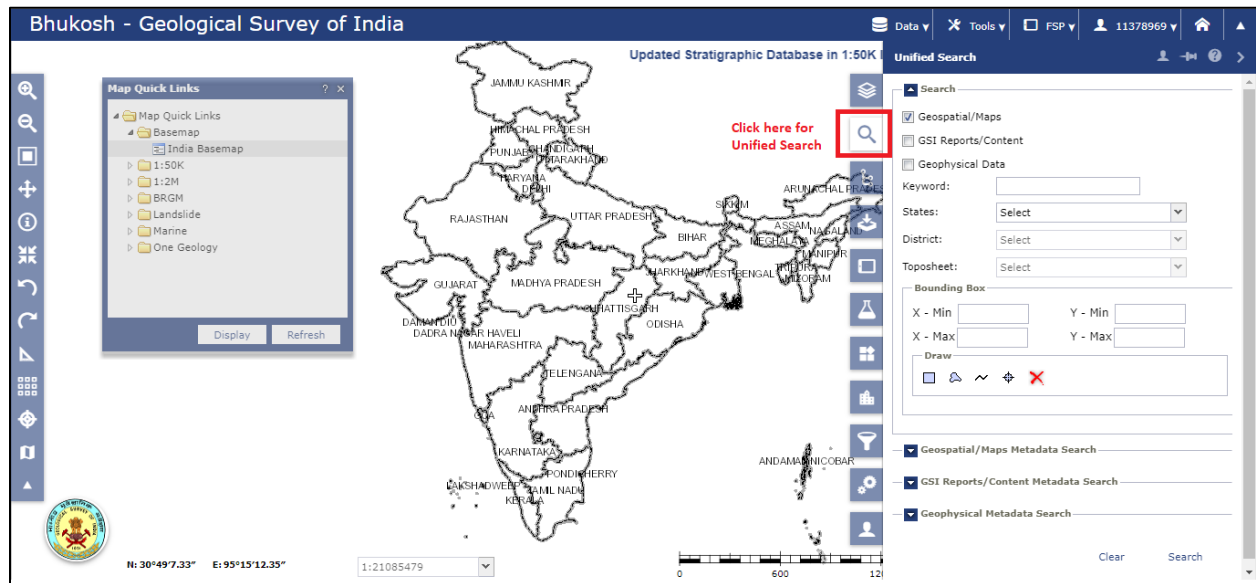

The screenshot shows the OCBIS portal header with the Government of India logo, OCBIS logo, and text in Hindi and English. Below the header is a navigation bar with links: HOME, ABOUT US, SERVICES, MAPS, PUBLICATIONS, REPORTS, DOWNLOADS, GEOINFO, TRAINING INSTITUTE, LIST OF CPIO VO & GO, WRITE2DG, IGC2020. The main content area is titled "Register Here" and contains a registration form for External Users. The form includes fields for Salutation, First Name, Middle Name, Last Name, Gender, Email, Address, User Name, Password, Confirm Password, Country, Mobile No., Pincode, Organization, and Purpose. There is also a Captcha field with a "Can't read image" link and a "SIGN UP" button at the bottom.

Please fill the mandatory fields and provide a valid Email-ID and Mobile Number, as it will be used for OTP verification to complete the registration process.

Once the registration is completed successfully, please login to Bhukosh (<http://bhukosh.gsi.gov.in>).

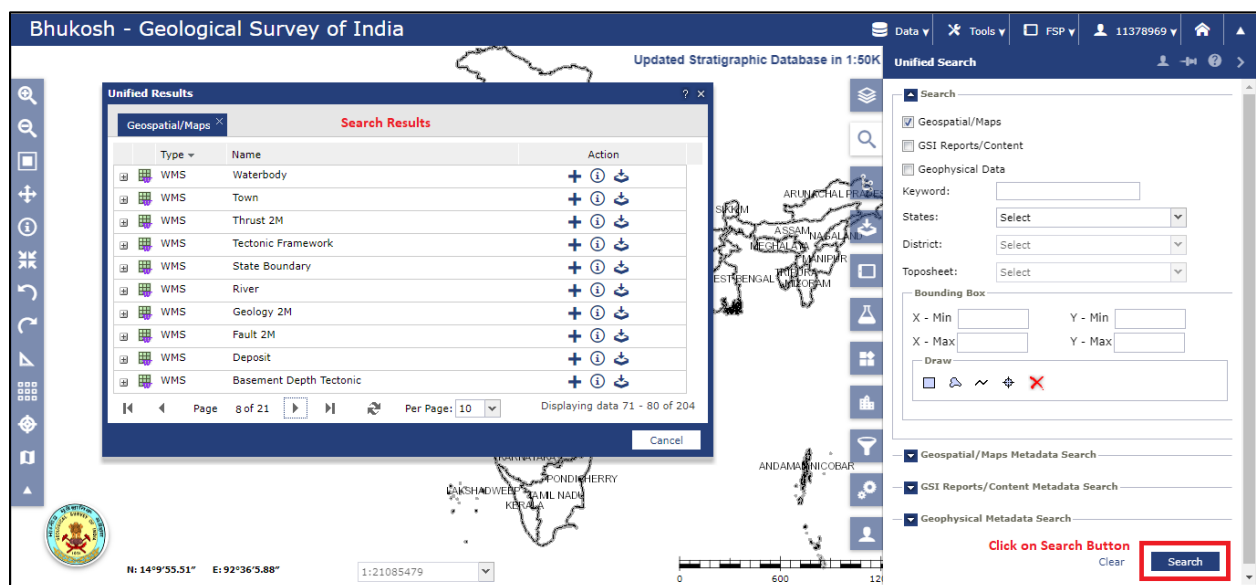

Search for data using Unified Search

Unified Search is a functionality which allows user to search for data stored in three different catalogues: a) Geospatial/Maps b) GSI Reports/Content c) Geophysical Data

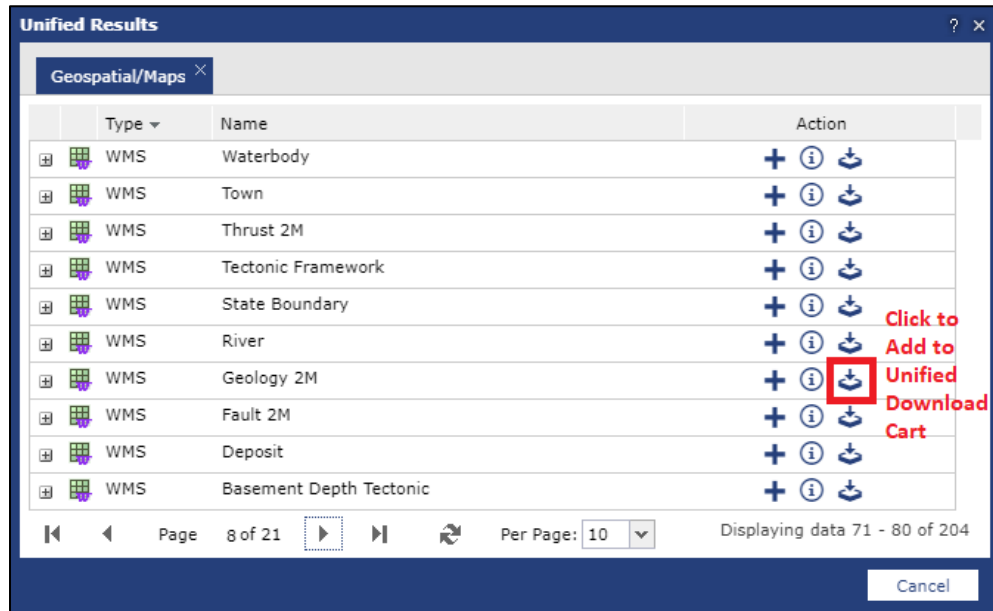

Different search filters like keyword-based search, State-District-Toposheet based Bounding Box Search etc. is available.

Click on **Search** button to fetch the Search Results.

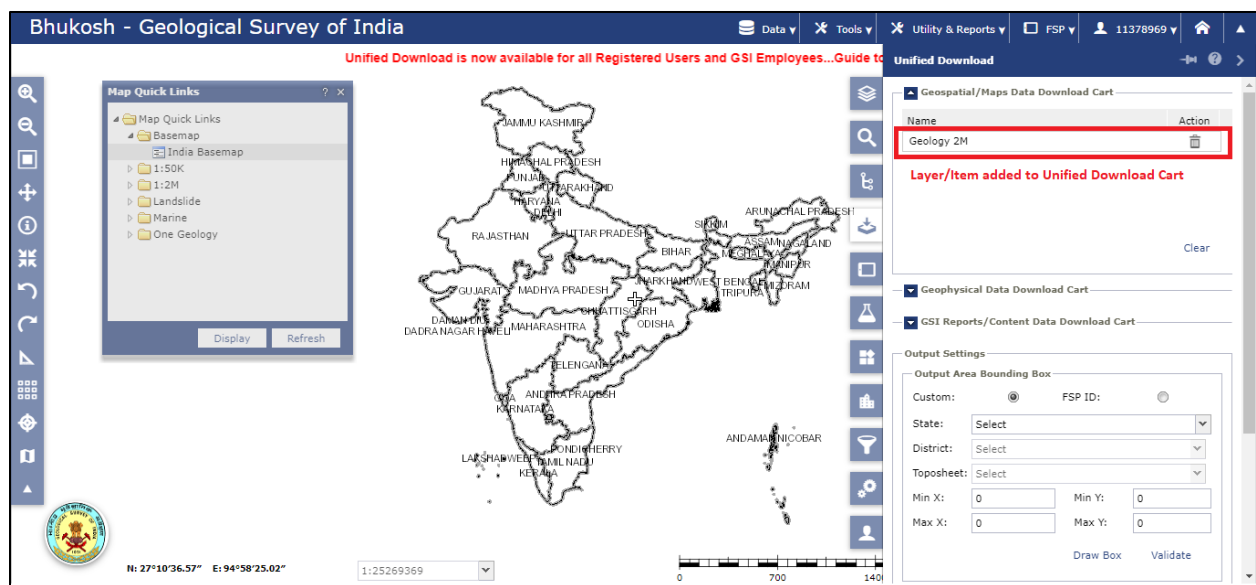

Add Layer/Item to Unified Download Cart

In the Search Results window, Click on **Download** icon  to add the layer/item to the Unified Download Cart.

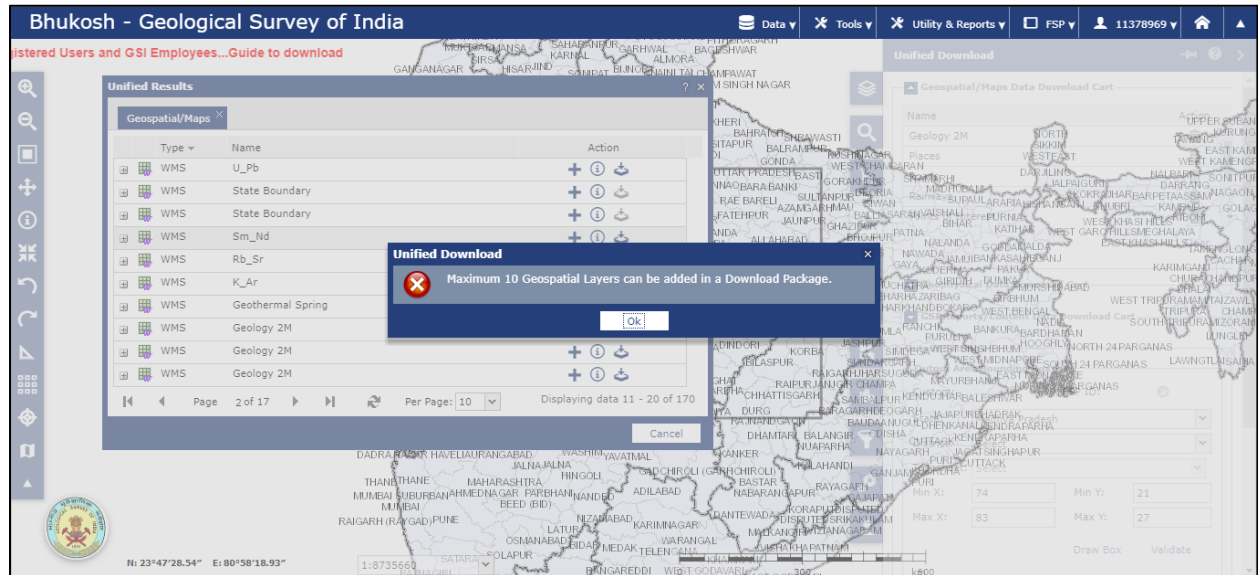

The selected Layer/Item is now added to Unified Download Cart. Similarly, more layers/items can be added to the Unified Download Cart.

Maximum 10 Layers/Items can be added in the Unified Download cart for each type of data – Geospatial/Maps or Geophysical Data or GSI Reports/Content Data.

If more than 10 Layers/Items are added, then below popup message will appear.

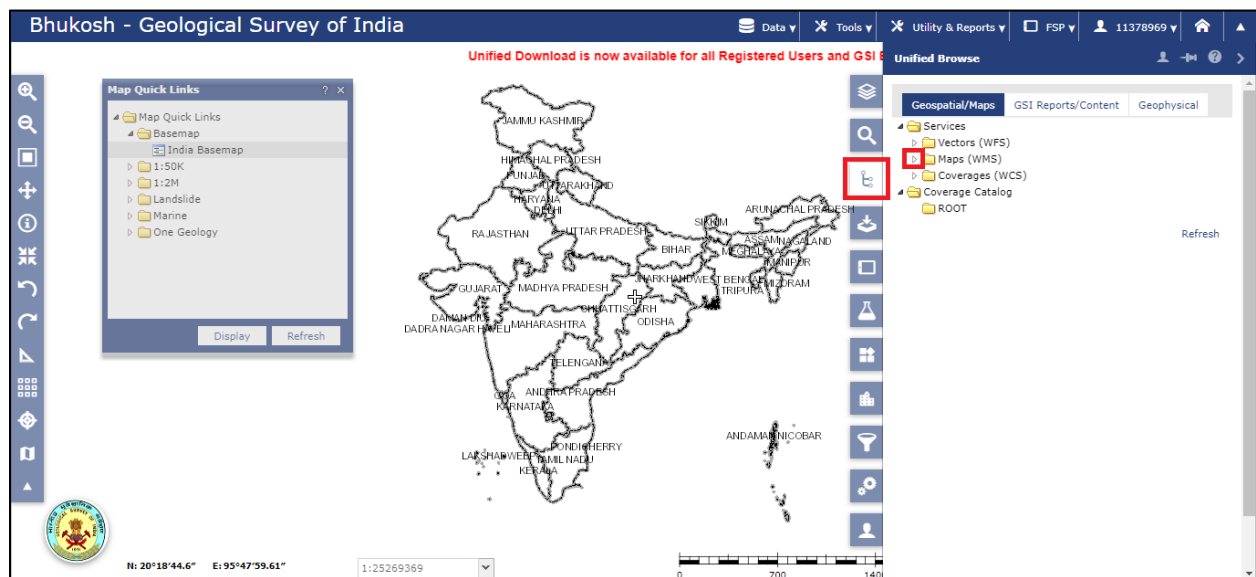

The screenshot shows the Bhukosh - Geological Survey of India web application interface. A 'Unified Download' popup message is displayed in the center, stating: "Maximum 10 Geospatial Layers can be added in a Download Package." The background shows a map of India with various states and districts labeled. On the left, there is a sidebar with navigation icons. The main content area displays a table of 'Geospatial/Maps' data. The table has columns for 'Type', 'Name', and 'Action'. The data rows include:

Type	Name	Action
WMS	U_Pb	+ ⓘ ↓
WMS	State Boundary	+ ⓘ ↓
WMS	State Boundary	+ ⓘ ↓
WMS	Sm_Nd	+ ⓘ ↓
WMS	Rb_Sr	+ ⓘ ↓
WMS	K_Ar	+ ⓘ ↓
WMS	Geothermal Spring	+ ⓘ ↓
WMS	Geology 2M	+ ⓘ ↓
WMS	Geology 2M	+ ⓘ ↓
WMS	Geology 2M	+ ⓘ ↓

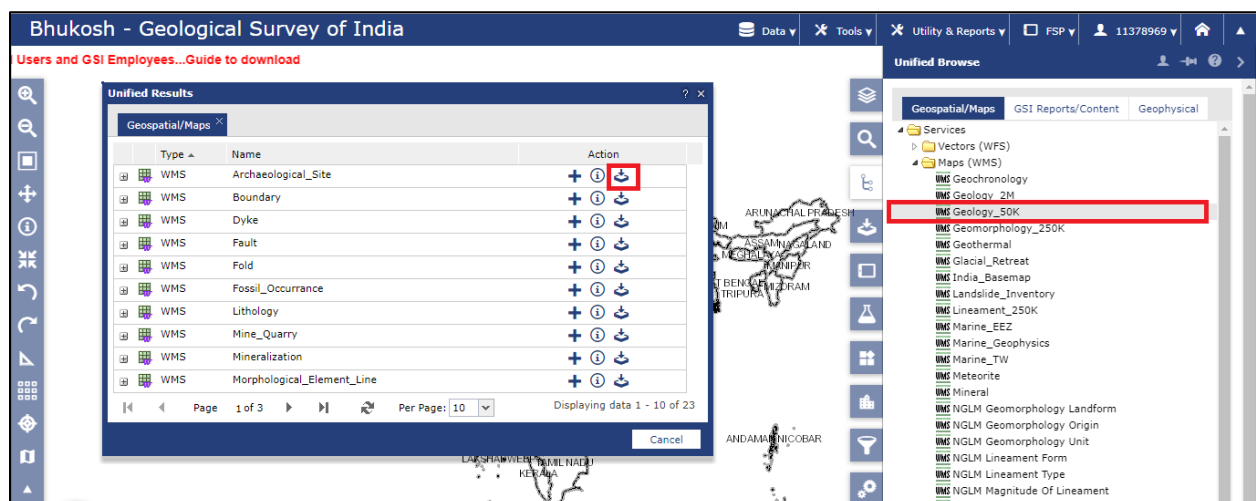

The table is on page 2 of 17, displaying data 11 - 20 of 170. The 'Unified Download' popup has an 'Ok' button. The map shows the location of the data being downloaded, with coordinates N: 23°47'28.54" E: 80°58'18.93" and a scale of 1:8735660.

Browse Map Service and Add Geospatial Layer(s) to Unified Download Cart

If user wants to add Geospatial Layers(s) pertaining to different Map Service(s) then it is available via the Unified Browse functionality in Bhukosh. Click on **Unified Browse** icon, and **expand the Maps (WMS)** item

Click on a WMS Service. This will open the Unified Results window with all the layers of the selected WMS listed.

In the Search Results window, Click on **Download** icon  to add the layer/item to the Unified Download Cart.

Set Output Settings and submit Download

The Output Area Bounding Box is used to download the selected layers in the cart as per the output Bounding Box (extent). It is mandatory to provide an Output Area Bounding Box.

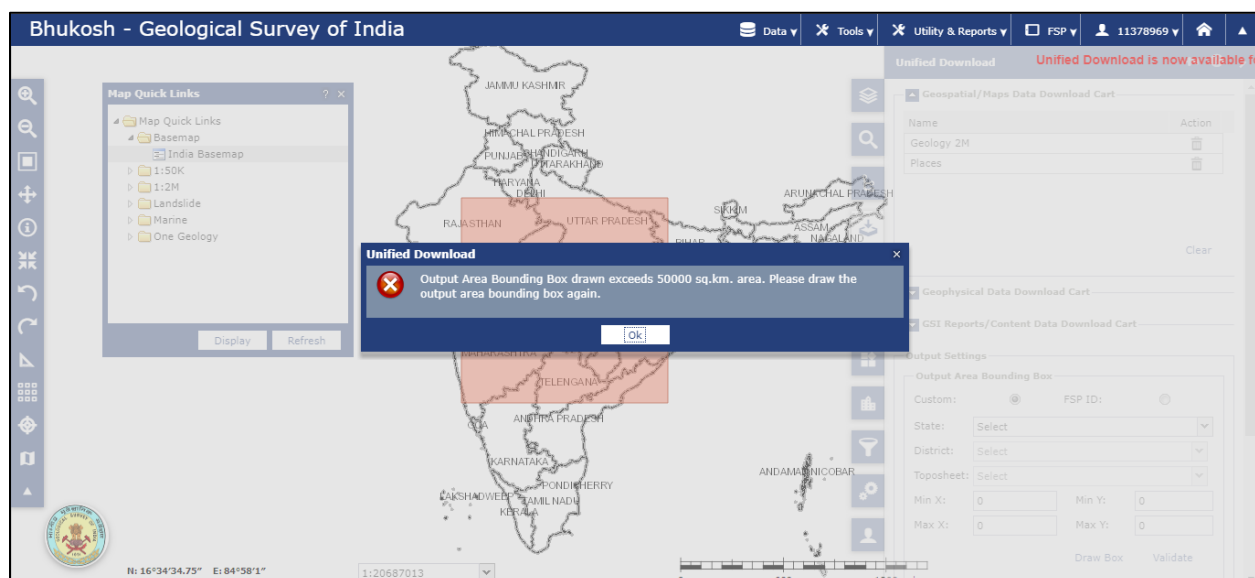

Provide the desired Output Area Bounding Box by either using the State-District-Toposheet dropdown filters or Click on **Draw** button to provide a custom Bounding Box.

The screenshot shows the Bhukosh - Geological Survey of India web application. The main map displays a geographical area with various districts and topographic features. On the right side, the 'Unified Download' panel is visible, containing several sections for data download. The 'Output Settings' section is highlighted with a red box, showing the 'Output Area Bounding Box' configuration. The 'Custom' radio button is selected, and the 'FSP ID' is set to 'M1AGS-STM/NC/CHQ//2017/15056'. The 'State' is set to 'Madhya Pradesh', 'District' is 'Select', and 'Toposheet' is 'Select'. The bounding box coordinates are: Min X: 74, Min Y: 21, Max X: 83, Max Y: 27. The 'Draw Box' and 'Validate' buttons are at the bottom of the section.

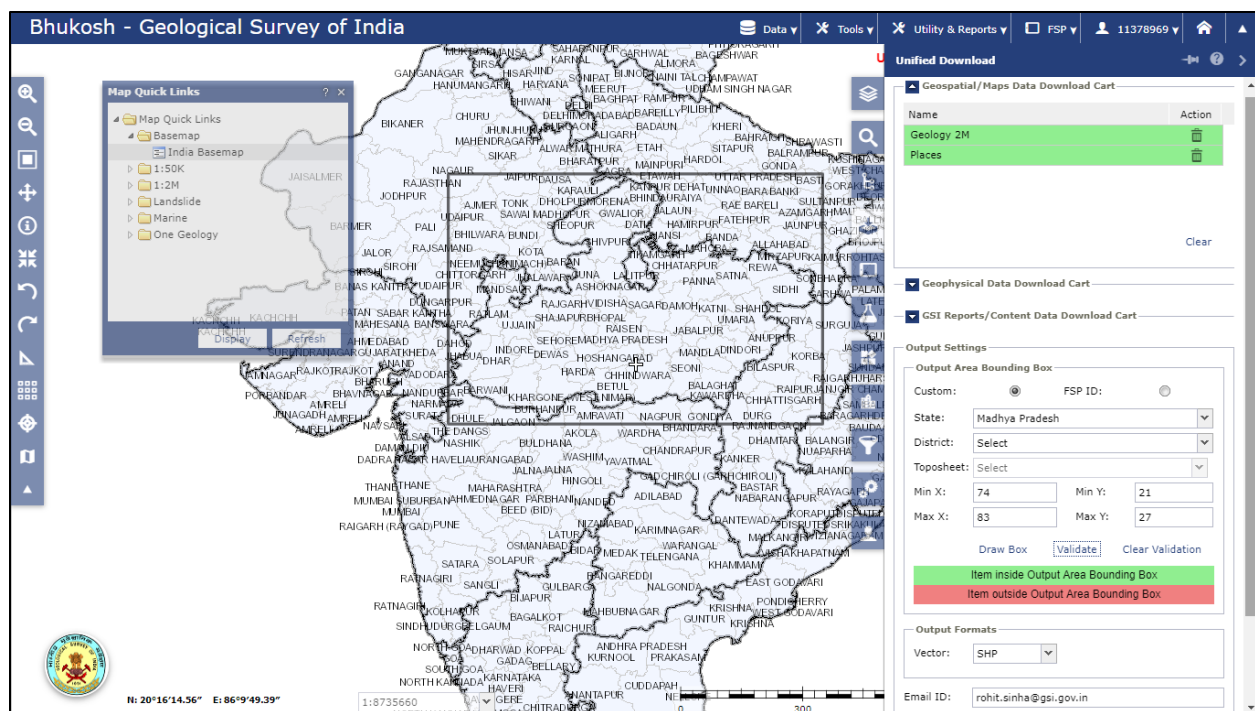

For GSI Employees, there is provision to set the Output Area Bounding Box as per their assigned FSP item. The Output Area will be as per Toposheet/Bounding Box provided in the FSP Item.

The screenshot shows the Bhukosh - Geological Survey of India web application. The main map displays a geographical area with various districts and topographic features. On the right side, the 'Unified Download' panel is visible, containing several sections for data download. The 'Output Settings' section is highlighted with a red box, showing the 'Output Area Bounding Box' configuration. The 'Custom' radio button is selected, and the 'FSP ID' is set to 'M1AGS-STM/NC/CHQ//2017/15056'. The 'State' is set to 'Madhya Pradesh', 'District' is 'Select', and 'Toposheet' is 'Select'. The bounding box coordinates are: Min X: 88.25, Min Y: 22.5, Max X: 88.75, Max Y: 22.75. The 'Draw Box' and 'Validate' buttons are at the bottom of the section.

If a custom Bounding Box is drawn on the map using the **Draw** button, then the bounding box area must be less than 50000 sq. km. If the output area exceeds 50000 sq.km. then below message will pop up.

The **Validate** button is provided, to check if the selected layers fall inside/outside the Output Area Bounding Box.

Select the desired **Output Format** as either SHP (Shapefile) or GML.

Click on **“Click to see the Terms and Conditions”** to view the Terms and Conditions. Click on **Agree** button.

Click on **Download** button.
